REVIEW GUIDELINES

When considering making changes to your dwelling or lot please take the time to read the ARC Guidelines refresh your understanding of the purpose of the ARC as explained in Covenants, Section VII. Both are available on the Hidden Hills website.

Review and approval is required before any exterior change can be made. Examples of work needing approval are structural additions, remodeling, fencing (includes changing the height to the fence or fence stain (color) pools, sheds, trampolines, playsets, landscaping, using a different color roof shingle, and painting of a different color on shutters, house trim or doors.

This is NOT an all-inclusive list.

The more details you can provide about your intentions and plans reduces the need for clarification questions and reduces the time needed for review and approval

A simple lot plan showing location of proposed changes with appropriate dimensions and expected materials to be used is extremely valuable to the committee in considering your request.

Complete the application located on the website and submit to the Hidden Hills Association office or the ARC Committee.
